

Ingenious mechanical simplicity and ease of maintenance make the Montefeltro shotgun the father of all current Benelli semiautomatics. A slim line and ergonomic design make for a balanced, comfortable firing position, both for hunting and sport. The Montefeltro shotgun is hardwearing, solid and totally reliable, with high quality finish and an eye for detail, like the non-slip checkering and the gold-plated trigger.

Technical Sheet

Mechanics	Inertial semi-automatic Benelli with variable geometry trigger release unit
Gauge	12
Receiver finish	Ergal, black anodised with photoengraving
Stock and fore-end	Walnut, fine checkered
Stock length trigger measured / deviation	360 mm / Rh adjustable
Drop at heel	55 mm adjustable to 45, 50, 60 and to 64 on request
Drop at comb	38,5 mm
Recoil pad	Bakelite
Magazine capacity	3 Magnum cartr., 4 standard cartr., with 2-rounds plug on request
Safety	Larger, transversal, with red "arm ready for shooting" signal
Weight	3.130 gr. approx. with 28" barrel*

* Figure subject to variation depending on the specific weight of the wood.

Technology

Inertia System

Essential design, simple construction, easy maintenance and mechanical precision for maximum strength and reliability.

Every single barrel is subjected to testing at Italy's national gun test establishment for steel shot firearms.
